

BENEFITS OF USING CI/CD FOR UDAPEOPLE PEOPLE.

WHAT IS CI/CD ?

- CI/CD stands for continuous integration and continuous development. Continuous integration is the practice of combining developer's works or copies to the shared main work multiple times a day. Continuous development is the delivery of values through automated process.

CI/CD
=CONTINUOUS
DELIVERY.

- Continuous Integration and Continuous development brings about continuous delivery. Continuous delivery is engineering practice of producing and releasing values within a short cycle. Some popular CI/CD tools include Jenkins, Gitlab, Circle CI and GitHub actions.

BENEFITS OF CI/CD FOR UDAPEOPLE.

CI/CD fetches errors after combination which reduce time and cost issues from new developer code and reduced deploy errors.

CI/CD helps in faster release rate which increase revenue and avoids cost for slow-release rate of the product.

BENEFITS OF CI/CD FOR UDAPEOPLE.

- CI/CD helps in easy maintenance and updates :This aid in avoiding cost and delivery of products in short cycle.
- Faster error Resolution Time: This aid in reducing cost and fast deployment of the product within a short time.
